ROOTED IN CRAFT. BUILT FOR THE FUTURE.

The story begins in 1960 at the central cemetery of Makhachkala, where Arslan Hajiev led a monument-making workshop. His mastery of stone, exacting standards and commitment to families established the foundation of Hajiev Stones.

Across generations, the workshop evolved from a cooperative craft into a private family business — preserving hand-finished detail while building the design, production and service capabilities of a modern memorial group.
